7th -9th October, 2022

5th International Conference on Nutraceuticals and Chronic Diseases on

"Pharmaceuticals and Nutraceuticals for Cancer and Other Chronic Diseases"

Organised by

Department of Zoology, University of Delhi

<https://incd2022.zoology.du.ac.in>

Registration
open

INCD 2022

International Conference on Nutraceuticals and Chronic Diseases conference is designed to explore the scientific basis for the 'Pharmaceuticals and Nutraceuticals for Cancer and Other Chronic Diseases'. Nutraceuticals derived from spices, dietary agents, and medicinal plants will be included. Chronic diseases specially cancer, and others such as diabetes, obesity, mental disorders, arthritis, cardiovascular, pulmonary, and infectious diseases will be covered. **Topics such as epigenetics, biofilms, microbiome, and omics, and their changes by nutraceuticals will also be covered.**

The word 'Nutraceutical' is the combination of the word's 'nutrition' and 'pharmaceutical'. A nutraceutical product is a food or fortified food product that not only supplements the diet but also assists in treating or preventing chronic disease, so provides medical benefits. Specific and targeted artificially created drugs have not been found much effective against multi-genic chronic diseases. Also, their extended uses tend to exhibit severe adverse side effects. In contrast, nutraceuticals have been found to be multi-targeted, highly effective over long-term and exhibit minimal side effects. The Society for Nutraceuticals and Chronic Diseases works towards exploring such facets.

Special Attraction:

- ❖ 10 Oral Presentation Awards
- ❖ 10 Poster Presentation Awards
- ❖ 10 Travel Awards*

(*Return 3-tier AC train fare from nearest railway station; last date August 15, 2022; please contact Conference Secretariat for application)

Important Dates

Registration

Ends on 31st August, 2022

Application for Travel Awards

Ends on August 15, 2022

Abstract Submission

Ends on August 31, 2022

Registration Details and Fee Structure

		Regular Registration* till 31 st August, 2022	Late Registration* from 1 st Sept., 2022	Spot Registration*
DU UG/PG	Online only	300INR	300INR	500INR
National	Students	3500 INR	4000 INR	5000 INR
National	Post doctoral fellows	4500 INR	5000 INR	6000 INR
National	Faculties	5500 INR	6000 INR	7000 INR
National	Accompanying person	3500 INR	4000 INR	5000 INR
National	Delegates from industry	12000 INR	14000 INR	15000 INR
International	Students	250 USD	300 USD	400 USD [#]
International	Post doctoral fellows	350 USD	400 USD	500 USD [#]
International	Faculties	450 USD	500 USD	600 USD [#]
International	Accompanying person	250 USD	300 USD	400 USD [#]
International	Delegates from industry	600 USD	750 USD	1000 USD [#]

*No Cash Payments; Registration fees includes 18% GST; *Fees will be collected in Indian rupees equivalent

5th International Conference on Nutraceuticals and Chronic Diseases

October 7-9, 2022

Sponsored by UGC-Special Assistance Program

Commemorating 100 years of University of Delhi and 75 Years of Department of Zoology

Second announcement.....

7th -9th October, 2022

"Pharmaceuticals and Nutraceuticals for Cancer and Other Chronic Diseases"

Invitation

Dear Friends,

Extensive research over last two decades has revealed that most chronic diseases are caused by the dysregulation of multiple genes. However, most of the drugs designed are highly specific and exhibit high affinity to aim single target. Most chronic diseases are multi-genic in nature, therefore, such drugs are effective for a short period and prone to develop resistance with significant side effects when taken for prolonged period. In contrast, most drugs designed by "mother nature" are multi-targeted, highly effective over long-term and exhibit minimal side effects. Thus, it is not too surprising that until very recently, almost 80% of all drugs had their roots in natural products, some of which are also referred to as "Nutraceuticals". The history of these nutraceuticals goes back to thousands of years as indicated by "Ayurveda" (science of long life), "Unani", "Siddha", "Homeopathy", traditional Chinese medicine (TCM) and other ancient treatments. These treatments being cost effective, not bound by IPR and coupled with minimal side effects, thereby prove to be extremely beneficial for resource limited settings of developing and underdeveloped countries like India. Therefore, considering the need of the hour, extensive research is warranted to improve the understanding the mechanism of action of these potential therapeutics.

The proposed conference is designed to explore the scientific basis for the use of pharmaceuticals and nutraceuticals for cancer and other chronic diseases. Nutraceuticals derived from spices, dietary agents, and medicinal plants will be included. Chronic diseases such as diabetes, obesity, cancer, mental disorders, arthritis, cardiovascular, pulmonary, and infectious diseases will be covered. Topics such as epigenetics, biofilms, microbiome, omics; and their changes by nutraceuticals will also be covered. Scientists actively engaged and devoted to these topics will be invited from around the world.

This meeting is going to be a global event with opportunities for networking and sharing of ideas with researchers from various countries. The delegates include scientists, nutritionists, allopathic, ayurvedic, homeopathic, unani, siddha and traditional medicine practitioners, delegates from various nutraceuticals and pharmaceutical industries and research students from all over the world. Furthermore, National and International delegates will have an exciting indulgence to the cosmopolitan culture, and traditions of north India.

On behalf of the organizing committee, it is our great honor to invite you to participate in the 5th International Conference on Nutraceuticals and Chronic Diseases to explore and promote research on Nutraceuticals in the prevention and treatment of chronic diseases.

5th International Conference on Nutraceuticals and Chronic Diseases

October 7-9, 2022

Sponsored by UGC-Special Assistance Program

Commemorating 100 years of University of Delhi and 75 Years of Department of Zoology

Second announcement.....

7th -9th October, 2022

"Pharmaceuticals and Nutraceuticals for Cancer and Other Chronic Diseases"

University of Delhi : Celebrating 100 Years

- The University of Delhi is a premier university of the country with a venerable legacy and international acclaim for highest academic standards.
- It was established in 1922 as a unitary, teaching and residential University by the Act of the then Central Legislative Assembly.
- Its long-term commitment to nation building and unflinching adherence to universal human values are reflected in its motto: 'Nishtha Dhriti Satyam' 'निष्ठा धृति सत्यम्' (Dedication, Steadfastness and Truth).
- Foster all-round development of students through multi-faceted education and sustained engagement with local, national and global communities, and nurture lifelong inspired learners from across the globe in line with our cultural ideal of 'Vasudhaiva Kutumbakam'.
- The steady progression of the University in terms of academic, co-curricular achievements as well as social outreach has touched the imagination of our nation.
- The University is completing 100 years and a momentous occasion to reflect upon our institutional success, achievements and glory. Present conference will serve as a catalyst to start year long celebration in the campus and dedicate ourselves towards cause of furtherance of higher education nationally and globally.

Department of Zoology –75 Years of Excellence

- Following its inception in 1947, under the leadership of Prof. M.L. Bhatia, the Department of Zoology has been recognized as the Centre for Advanced Studies (CAS) since 1963 and has continued to maintain this status till date.
- The department is well known premier centre for research and teaching in basic, applied and advanced areas of Zoology.
- Technically-advanced central-instrument facility with modern infrastructure, Information Technology based Classrooms for online teaching and 7 GLP standard laboratories for conducting practical are the major advancements in the last few decades.
- An independent animal house facility of the department is well equipped for maintaining the colonies of different model organisms to be used for conducting experiments.
- The museum is having a rich collection of rare animal specimens and was the first 'Natural History Museum' in the country.
- Alumni are doing exceptionally well as teachers, scientists and policy makers at various universities and research institutions across India and abroad.
- Faculty of the department are recognized Internationally, members of several Academies (INSA, IAS, NAS, NAAS) and recipients of many awards/fellowships (J C Bose Fellow, Best Teacher Award, Prof. B.N. Johari Award).
- Over 75 years, the department takes pride in developing a strong base of Post-graduate & Doctoral Students

Topics covered

- Nutraceuticals and inflammatory diseases
- Nutraceuticals and infectious diseases
- Nutraceuticals and cancer
- Nutraceuticals and cardiovascular disorders
- Nutraceuticals and neurological disorders
- Nutraceuticals and autoimmune disorders
- Nutraceuticals and metabolic disorders
- Nutraceuticals and mental disorders
- Nutraceuticals and immunomodulation
- Nutraceuticals: omics & personalized medicine
- Nutraceuticals: rare and neglected diseases
- Nutraceuticals: pharmacokinetics and pharmacodynamics
- Nutraceutical technology
- Other relevant areas

Second announcement.....

NUTRACEUTICAL EXHIBITION AT INCD2022

As the name suggests, the theme of the conference INCD2022 is the pharmaceuticals and nutraceuticals in chronic diseases which encompass both prevention and treatment. As evident from literature and upcoming research, nutraceuticals play an important role in the management of chronic diseases. Despite their medicinal activity, the use of nutraceuticals is not widely documented in mainstream clinical management. The conference, INCD2022 has been organized with an aim to promote the use of nutraceuticals. A range of these natural healers are already available in the market and at INCD2022, we would like to invite the nutraceutical companies to showcase their products. To boost the usage of these efficacious molecules, we are organizing an exhibition at INCD2022. The exhibition would provide an opportunity to the nutraceutical companies to set up stalls and display their products. In this process, the nutraceuticals would also get recognized and intake of such natural healers may help many victims of chronic diseases. We encourage the nutraceutical companies to consider this opportunity at INCD2022 and boost the usage of Nutraceuticals. Please check our Benefits page for the industry.

For details of the exhibition/stalls and sponsorship, please send an email to alokchandrab@yahoo.com; ashrivastava@zoology.du.ac.in or incd2022@gmail.com or incd2022@zoology.du.ac.in

We look forward to hear from you.

SPONSORS

It is with great pleasure that we invite your organization to consider sponsorship for the 5th International Conference on Nutraceuticals and Chronic Diseases, October 7-9, 2022 to promote excellence with a focus on competency. The conference will host eminent scientists, leading experts from scientific and business community, academicians, research scholars and student delegates from various institutions. The conference will show attendees, presenters and sponsors to network, share ideas and to learn or reinforce new ideas on the recent developments in this field.

This is an opportunity to promote your brand and to maintain a high profile among key influencers and decision makers before, during and after the event.

Category	Amount (in USD, or INR Equivalent)	Type of sponsorship	Additional Benefits
Platinum	USD10,000 (INR8,00,000)	Conference Title Sponsor	<ul style="list-style-type: none"> Name and company logo in all the displays, the Conference proceedings as sponsors. Full page (last page) Advertisement in Conference proceedings Space for a stall in Nutraceutical Exhibition and 2 complimentary Industry delegate passes
